## ***What are Electronic Cigarettes?***

*Unlike a traditional cigarette, Electronic Cigarettes from eSmokeClub **do not contain any tobacco!** They are also free of the many hundreds of carcinogens and toxins found in real cigarettes, such as arsenic, tar and carbon monoxide.*

*With Electronic Cigarettes you will have the freedom to "vape" in many indoor areas all while potentially saving thousands of dollars. There are **no odors, no ashtrays, no butts, no mess, no flames, and no second-hand smoke.** In fact, there is no first-hand smoke either!*

*All you get is atomized nicotine vapor and a simulated smoking experience that closely resembles real cigarettes!*

*Electronic cigarettes (e-Cigs) are easy to use and compact enough to fit anywhere. The devices simulate the functions of a real cigarette without the harmful chemicals. Powered by rechargeable Lithium-Ion batteries, they typically use a small replaceable cartridge filled with nicotine fluid or flavored propylene glycol liquid.*

## Our Products

### ***Starter Kit - Titan I - Dry Herb - Wax - Vaporizer***

*The **Titan-I Dry Herb and Wax Vaporizer** is an outstanding new device with an all-in-one heating chamber that provides you with the ability to change the dry herb or wax vaporizing temperature at a moment's notice.*

#### ***Highlights:***

- Dry Herb Vaporizer: Vaporize dry medicinal herbs or wax anywhere
- High capacity rechargeable battery provides 80 minutes of use
- Light weight and portable with good vapor quality
- Easily operated, well designed heating chamber
- 5 clicks in 3 seconds powers unit on/off
- Low Voltage Alarm indicator blinks red five times on low charge
- Powers off automatically after 10 minutes
- Bottom USB charge

#### ***Three Temperature adjustments***

- Hold button for 1 second to adjust chamber temperatures
- Heating Chamber Temperature LED:
  - red at 360 °C***
  - green at 380 °C***
  - blue at 420 °C***

## ***Flavorings - Capella Flavor Drops***

*These 13ml Capella Flavor Drops have some of the richest flavors on the market. They are highly concentrated, water soluble, multi-use flavorings.*

*They can be used to enhance water, food, and, of course, eLiquids for vaping. Use them with our DIY Flavorless eLiquid to create your own unique flavors!*

*Simply combine 1ml of flavorless eLiquid (optionally add 1ml of glycerin) in an empty dropper bottle, then add a drop or two of your choice of Capella Flavor Drops little by little until the taste matches your needs. Mix and match to create your own special vaping fluid!*

*Capella Flavor Drops do not contain fats, carbohydrates, calories, sweeteners, or gluten.*

## ***Battery - EGO Winder - Variable Voltage eCig Batteries***

*This is a Smoktech EGO Winder Battery. The winder battery provides the diversity of vaping at different voltages. It has a redesigned circuit board from previous Twist style batteries making them more reliable. The adjustable base has five markings to indicate approximate output voltages at 3.2, 3.6, 4.0, 4.4, and 4.8 volts, but it is adjustable throughout the entire voltage range!*

*These are available in 900mAh, 1100mAh, or 1300mAh.*
